PROJECT NAME	NUTRITION ASSISTANT APPLICATION
NAME	NARESHSHANKAR A

Create a html file to display Name,Qualification,Age,Email and Submit button

```
<!DOCTYPE html>

<html>

<style>

h1{

background-color: pink;

font-style: italic;

text-align: center;

}

</style>

</head>

<body>

<form>

Name<input type="text" name="form_Name"><br><br>

Age<input type="number" name="form_Age"><br><br>

Email id<input type="email" name="form_Email"><br><br>

Qualification<input type="text" name="form_Qualification"><br><br>

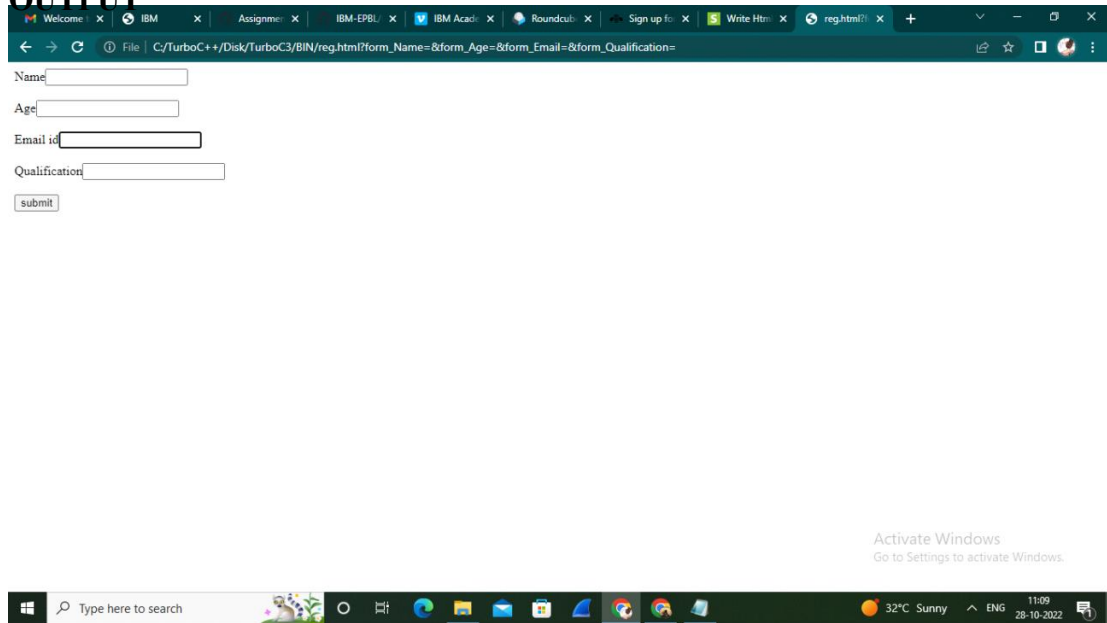

<input type="submit" value="submit">

</form>

</body>
```

</html>

## OUTPUT

The screenshot displays a web browser window with multiple tabs. The active tab shows a file path in the address bar: `C:/TurboC++/Disk/TurboC3/BIN/reg.html?form_Name=&form_Age=&form_Email=&form_Qualification=`. The page content includes a registration form with the following elements:

- Input field for Name
- Input field for Age
- Input field for Email id
- Input field for Qualification
- A submit button

At the bottom of the browser window, there is a Windows taskbar with a search bar, several application icons, and a system tray showing the date and time as 11:09 on 28-10-2022. A Windows activation watermark is visible in the bottom right corner of the browser area.
